Paintball Park "Ieviņas"

Paintball Park "Ieviņas" invites you to experience an unforgettable paintball or LaserTag adventure in our **5-hectare park**, featuring **five unique playing fields** — located in **Murjāņi, Mārupe**.

It's a great place for companies, friends, and families to enjoy team-building, birthdays, bachelor parties, or simply a day of active fun in nature.

After the game, relax in one of our picnic shelters, grill some barbecue, and cool off with a swim in the pond.

Playing Fields

Forest Fort – a wooded area with fortifications, guards, and various hiding spots among pines and spruces. Ideal for warm-up and base-switch games.

Forest Bastion – an enemy base among old trees, complete with towers, trenches, and obstacles. The goal: destroy the opposing base.

Sicilian City – narrow streets with houses, cars, and cover points. Two rival "mafia families" live on opposite sides of the street — and their feud has just begun.

The Great Training Ground (1.1 ha) – a large area with towers, bunkers, shelters, and trenches. Perfect for big team battles. The field can be divided into two zones for smaller groups or used as one massive battlefield for large matches.
